

EXTREME CHALLENGE AREAS

Mu's Nemesis (aka U-Joint Hill)

A challenging section on the Hallfrish Trail that requires technical skills to overcome the terrain. Not recommended for the faint of heart. Take the long way around if you're on your own. Better to be safe than sorry.

Walker Trail

This was the first "ORV Route" opened on Drummond Island State Forest Land to accommodate large sized vehicles. Deep mud and obstacles can be found around the mid-way section. We highly recommend you "buddy up" for this one.

Tight Twisties

One of Drummond Island's most difficult trails. This remote location in the center of the island offers hills, rocks, mud, and technical driving. Be smart. Don't go alone, it's a long walk out.

Log Jam (aka Connor's Hole)

The log jam hole increases in difficulty by the season. In spring, with the melting winter snow pack, this section of Drummond's trail system can be pretty wicked. By mid-summer this is a long deep water hole with lots of photo ops. However, one heavy rain can change everything. You may want to take the bypass if you're unsure of the conditions.

Tank Traps

The Tank Traps are for "serious minded folks" only. Lockers, tow straps, a winch and other equipment are highly recommended. Thanks to logging efforts, there is now an easy bypass that runs parallel to the tank traps if you're not up for the challenge or want to watch more experienced drivers.

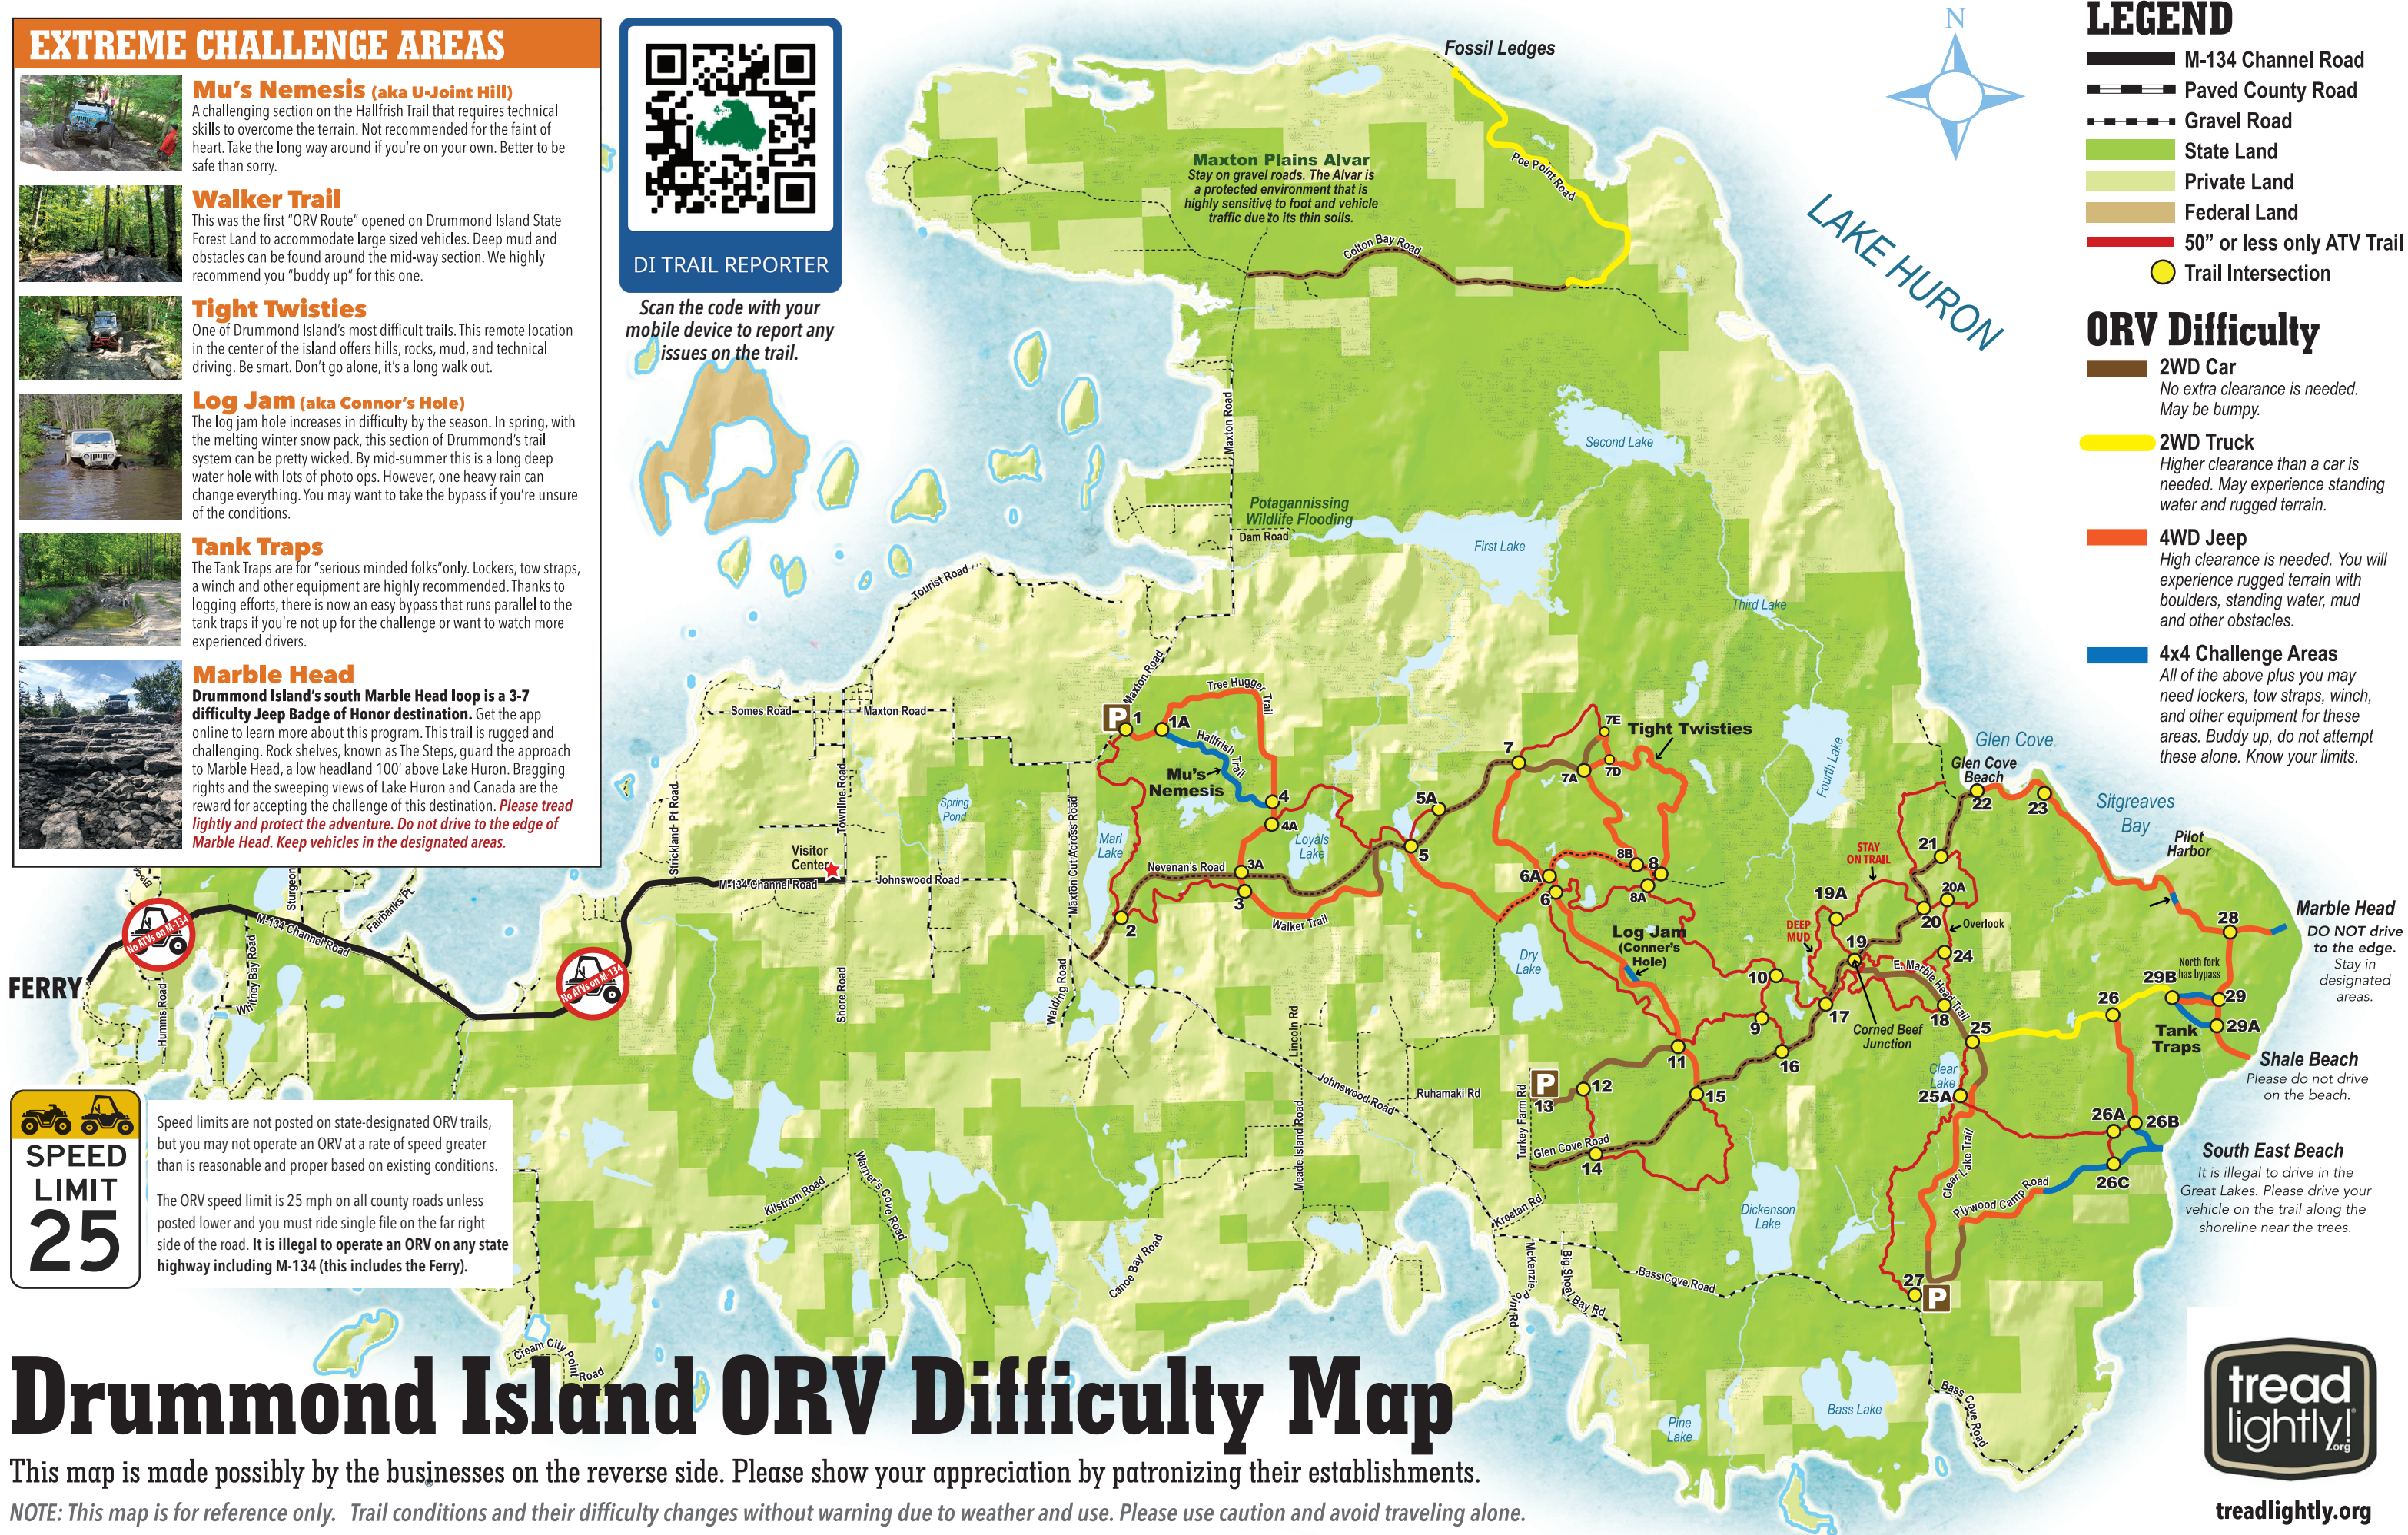

Marble Head

Drummond Island's south Marble Head loop is a 3-7 difficulty Jeep Badge of Honor destination. Get the app online to learn more about this program. This trail is rugged and challenging. Rock shelves, known as The Steps, guard the approach to Marble Head, a low headland 100' above Lake Huron. Bragging rights and the sweeping views of Lake Huron and Canada are the reward for accepting the challenge of this destination. *Please tread lightly and protect the adventure. Do not drive to the edge of Marble Head. Keep vehicles in the designated areas.*

DI TRAIL REPORTER

Scan the code with your mobile device to report any issues on the trail.

LEGEND

- M-134 Channel Road
- Paved County Road
- Gravel Road
- State Land
- Private Land
- Federal Land
- 50" or less only ATV Trail
- Trail Intersection

ORV Difficulty

- 2WD Car**
No extra clearance is needed. May be bumpy.
- 2WD Truck**
Higher clearance than a car is needed. May experience standing water and rugged terrain.
- 4WD Jeep**
High clearance is needed. You will experience rugged terrain with boulders, standing water, mud and other obstacles.
- 4x4 Challenge Areas**
All of the above plus you may need lockers, tow straps, winch, and other equipment for these areas. Buddy up, do not attempt these alone. Know your limits.

FERRY

SPEED LIMIT 25

Speed limits are not posted on state-designated ORV trails, but you may not operate an ORV at a rate of speed greater than is reasonable and proper based on existing conditions.

The ORV speed limit is 25 mph on all county roads unless posted lower and you must ride single file on the far right side of the road. It is illegal to operate an ORV on any state highway including M-134 (this includes the Ferry).

Drummond Island ORV Difficulty Map

This map is made possible by the businesses on the reverse side. Please show your appreciation by patronizing their establishments.

NOTE: This map is for reference only. Trail conditions and their difficulty changes without warning due to weather and use. Please use caution and avoid traveling alone.
